The Federalist Papers Alexander Hamilton, John Jay, James Madison, 2018-08-20 Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyze the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755-1804) was an American lawyer, journalist and highly influential government

official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

The Greenhouse Gas Protocol, 2004 The GHG Protocol Corporate Accounting and Reporting Standard helps companies and other organizations to identify, calculate, and report GHG emissions. It is designed to set the standard for accurate, complete, consistent, relevant and transparent accounting and reporting of GHG emissions.

On the Constitutionality of a National Bank Alexander Hamilton, 2016-12-10 In 1791, The First Bank of the United States was a financial innovation proposed and supported by Alexander Hamilton, the first Secretary of the Treasury. Establishment of the bank was part of a three-part expansion of federal fiscal and monetary power, along with a federal mint and excise taxes. Hamilton believed that a national bank was necessary to stabilize and improve the nation's credit, and to improve financial order, clarity, and precedence of the United States government under the newly enacted Constitution. Alexander Hamilton (1755-1804) was a founding father of the United States, one of the most influential interpreters and promoters of the Constitution, the founder of the American financial system, and the founder of the Federalist Party. As the first Secretary of the Treasury, Hamilton was the primary author of the economic policies for George Washington's administration. Hamilton took the lead in the funding of the states' debts by the federal government, the establishment of a national bank, and forming friendly trade relations with Britain. He led the Federalist Party, created largely in support of his views; he was opposed by the Democratic Republican Party, led by Thomas Jefferson and James Madison, which despised Britain and feared that Hamilton's policies of a strong central government would weaken the American commitment to Republicanism.

This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will

increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

The Noncommissioned Officer and Petty Officer BACKBONE of the Armed Forces. Introduction The Backbone of the Armed Forces To be a member of the United States Armed Forces--to wear the uniform of the Nation and the stripes, chevrons, or anchors of the military Services--is to continue a legacy of service, honor, and patriotism that transcends generations. Answering the call to serve is to join the long line of selfless patriots who make up the Profession of Arms. This profession does not belong solely to the United States. It stretches across borders and time to encompass a culture of service, expertise, and, in most cases, patriotism. Today, the Nation's young men and women voluntarily take an oath to support and defend the Constitution of the United States and fall into formation with other proud and determined individuals who have answered the call to defend freedom. This splendid legacy, forged in crisis and enriched during times of peace, is deeply rooted in a time-tested warrior ethos. It is inspired by the notion of contributing to something larger, deeper, and more profound than one's own self. Notice: This is a printed Paperback version of the *The Noncommissioned Officer and Petty Officer BACKBONE of the Armed Forces*. Full version, All Chapters included. This publication is available (Electronic version) in the official website
