A to Zoo Rebecca L. Thomas, 2018-06-21 Whether used for thematic story times, program and curriculum planning, readers' advisory, or collection development, this updated edition of the well-known companion makes finding the right picture books for your library a breeze. Generations of savvy librarians and educators have relied on this detailed subject guide to children's picture books for all aspects of children's services, and this new edition does not disappoint. Covering more than 18,000 books published through 2017, it empowers users to identify current and classic titles on topics ranging from apples to zebras. Organized simply, with a subject guide that categorizes subjects by theme and topic and subject headings arranged alphabetically, this reference applies more than 1,200 intuitive (as opposed to formal catalog) subject terms to children's picture books, making it both a comprehensive and user-friendly resource that is accessible to parents and teachers as well as librarians. It can be used to identify titles to fill in gaps in library collections, to find books on particular topics for young readers, to help teachers locate titles to support lessons, or to design thematic programs and story times. Title and illustrator indexes, in addition to a bibliographic guide arranged alphabetically by author name, further extend access to titles.

Petals from the Sky Mingmei Yip, 2010 Ming Neng, entering a retreat to test her karma as a Buddhist nun, becomes trapped between her long-held spiritual quest and forbidden passion when she succumbs to temptation with the young American doctor who saved her life. Original.

Storytelling Janice M. Del Negro, 2021-06-24 This book serves as both a textbook and reference for faculty and students in LIS courses on storytelling and a professional guide for practicing librarians, particularly youth services librarians in public and school libraries. *Storytelling: Art and Technique* serves professors, students, and practitioners alike as a textbook, reference, and professional guide. It provides practical instruction and concrete examples of how to use the power of story to build literacy and presentation skills, as well as to create community in those same educational spaces. This text illustrates the value of storytelling, covers the history of storytelling in libraries, and offers valuable guidance for bringing stories to contemporary listeners, with detailed instructions on the selection, preparation, and presentation of stories. It also provides guidance around the planning and administration of a storytelling program. Topics include digital storytelling, open mics and slams, and the neuroscience of storytelling. An extensive and helpful section of resources for the storyteller is included in an

expanded Part V of this edition.

Differentiating Instruction With Menus for the Inclusive Classroom Laurie E. Westphal, 2021-09-03 Differentiating Instruction With Menus for the Inclusive Classroom: Language Arts for grades 3-5 offers teachers everything they need to create a student-centered learning environment based on choice. This book provides five different types of menus that students can use to select exciting products that they will develop so teachers can assess what has been learned-instead of using a traditional worksheet format. Topics addressed include genres, popular novels, and mechanics. Differentiating Instruction With Menus for the Inclusive Classroom: Language Arts provides numerous types of leveled menus that lower and on-level elementary-aged students can use to demonstrate learning through a method of their choice. Menus with similar formats but geared towards varying ability levels allow teachers to differentiate easily. Using the creative and challenging choices found in Three Shape menus, Tic-Tac-Toe menus, List menus, 2-5-8 menus, and Game Show menus, students will look forward to sharing their newfound knowledge throughout the year. Also included are specific guidelines for products, rubrics for assessing student products, and teacher introduction pages for each menu. This is a must-have for any teacher wanting to differentiate for a wide range of learners! Grades 3-5

See the Cat: Three Stories About a Dog David LaRochelle,2021-03-30 Winner of the 2021 Theodor Seuss Geisel Award Move over, Spot. . . . Spoofing classic primers, Max the Dog talks back to the book in a twist that will have fans of funny early readers howling. See Max. Max is not a cat—Max is a dog. But much to Max’s dismay, the book keeps instructing readers to “see the cat.” How can Max get through to the book that he is a DOG? In a trio of stories for beginning readers, author David LaRochelle introduces the excitable Max, who lets the book know in irresistibly emphatic dialogue that the text is not to his liking. Illustrator Mike Wohnoutka hilariously depicts the pup’s reactions to the narrator and to the wacky cast of characters who upend Max’s—and readers’—expectations as the three stories build to an immensely satisfying conclusion. Hooray, Max, hooray!
